AUTOMÓVIL CLUB
DEL ECUADOR

THE PROJECT

A training programme for children aged 6 to 17 years in road safety education through use of a mobile "road park." The programme was designed to help reduce the high accident rate in Ecuador and promote road safety education as a preventive strategy.

RESULT

This project was unique in Ecuador and had a very positive impact in cities visited. It attracted the support and interest of public authorities and the media and many of the cities aimed to replicate the project with the construction of permanent road parks.
